Delta-Mendota Subbasin
Coordination Committee Meeting

Wednesday, December 13, 2017, 10:00 AM
842 6th Street, Los Banos, CA

DRAFT Meeting Minutes

1. Introductions

Andrew Garcia, San Luis Delta Mendota Water Authority (Authority), called the meeting to order at approximately 10:05 AM.

2. Discussion on Establishing Communication Subcommittee

Kirsten Pringle, Stantec, outlined the proposed development of a Communications subcommittee, its purpose, and roles and responsibilities. Ms. Pringle noted this would be a subcommittee to the Coordination Committee composed of Public Information Officers, Public Relations, or staff with similar experience. The main goal would be to save costs by sharing messaging and also working collaboratively on subbasin wide messaging. Andrew Garcia and Palmer McCoy agreed to follow up with various city and county representatives to determine subcommittee membership.

3. Draft Coordination Agreement Document Walk-Through

Diane Rathmann, SLDMWA counsel, compiled comments from Delta-Mendota Subbasin GSAs and Coordination Committee legal representatives. Diane walked through the key concepts which required discussion based on various comments and concerns expressed during Draft Agreement review. Diane explained that commenters expressed the references to a budget and representative voting structure resemble a new entity or JPA. Diane continued to describe other changes were small, such as grammatical, checking for consistency, etc. Diane also described the addition of references to the completion of technical memorandums for each section of the agreement as required by SGMA. These memos will explain how coordination took place and results of the coordination efforts. Final memos are to be submitted with the GSPs in order to ensure compliance with the regulations with respect to coordinated sustainability plans.

Andrew Garcia explained to the Coordination Committee a proposed resolution to the comments that Diane noted with respect to voting and budgets within the Coordination Agreement. Diane drafted the current draft to explain that votes would be considered a "Recommendation" to each GSA or Party to the Agreement. Jim Stillwell noted that this type of structure goes against previous discussions of splitting the authority amongst GSP groups, and that Farmers Water District GSA would not agree to split the cost by one-sixth (1/6) if there was not a one-sixth (1/6) vote and delegation of authority. The Coordination Committee agreed that the structure should remain not as a recommendation but as a vote of GSP representatives who have been delegated such authority from their GSAs within their GSP Group. Each GSP Group will be responsible for ensuring such authority has been delegated.

Diane then explained that the budget and Coordinated Plan Expenses could be removed from the Coordination Agreement and contained as a separate agreement, such as a Cost Share Letter of Agreement. Andrew noted that a majority of these parties executed a similar agreement when agreeing to pay the cost for the Prop 1 Grant Application preparation. Diane explained that this would take considerable work, but could be done if it was agreeable to the Committee. Ellen Wehr requested clarification as to the reason for this comment and Diane explained again regarding the resemblance to a separate entity.

Jarrett Martin (CCID/Exchange Contractors) noted that based on the number of comments regarding this issue, he expects it would be more efficient and less costly to remove the budget and expense language and prepare a draft Cost Share Agreement rather than to discuss the issue with various entities. The Coordination Committee agreed that this is the best path to proceed, in the interest of finalizing a Coordination Agreement.

Diane Rathmann, Becca Akroyd (SLDMWA Counsel) agreed to coordinate a conference call with other legal counsel from the Exchange Contractors, Fresno County, and Merced County to discuss the proposed creation of two unique agreement documents for coordination purposes.

4. Next Steps

The Committee members were asked to talk to various participants within their GSAs regarding participation in a Communications Subcommittee.

Diane Rathmann and Rebecca Akroyd were asked to propose a date for a conference call of attorneys within the first two weeks of January to discuss the separation of budget/coordinated costs into a Cost Share Agreement and GSP work in a Coordination Agreement.

Jarrett Martin was asked to coordinate with the Exchange Contractor GSP participating cities, counties, and districts regarding appointment and delegation of authority to a GSP Representative on the Coordination Committee.

Mr. Garcia was asked to coordinate with the North and Central Region Management Committees regarding appointment and delegation of authority to a GSP Representative on the Coordination Committee.

5. Adjourn

Andrew Garcia, SLDMWA, adjourned the Coordination Committee Meeting at approximately 12:00 p.m.

DRAFT DELTA-MENDOTA SUBBASIN COORDINATION AGREEMENT

THIS DELTA-MENDOTA SUBBASIN COORDINATION AGREEMENT is made effective as of _____, 2018 by and among the groundwater sustainability agencies within the Delta-Mendota Subbasin (each a “Party” and collectively the “Parties”) and is made with reference to the following facts:

WHEREAS, On September 16, 2014, Governor Jerry Brown signed into law Senate Bills 1168 and 1319 and Assembly Bill 1739, known collectively as the Sustainable Groundwater Management Act (“SGMA”);

WHEREAS, SGMA requires all groundwater subbasins designated as high or medium priority by the California Department of Water Resources (“DWR”) to manage groundwater in a sustainable manner;

WHEREAS, the Delta-Mendota Subbasin (Basin Number 5-22.07, DWR Bulletin 118) within the San Joaquin Valley Groundwater Basin (“Subbasin”), has been designated as a high-priority basin by DWR;

WHEREAS, the Delta-Mendota Subbasin includes multiple groundwater sustainability agencies that intend to manage the Subbasin through the development and implementation of multiple different groundwater sustainability plans;

WHEREAS, SGMA allows local agencies to engage in the sustainable management of groundwater, but requires groundwater sustainability agencies in all basins that are managed by more than one groundwater sustainability plan to enter into a coordination agreement to coordinate the multiple groundwater sustainability plans to sustainably manage the Subbasin pursuant to SGMA;

WHEREAS, pursuant to the requirements of SGMA, and the California Code of Regulations, and in recognition of the need to sustainably manage the groundwater within the Delta-Mendota Subbasin, the Parties desire to enter into this Agreement between their individual groundwater sustainability agencies;

WHEREAS, in order to efficiently coordinate among the large number of GSPs in the Subbasin, the Parties intend to organize themselves into GSP Groups and to be represented by the GSP Group Representatives, on terms to be developed and implemented by separate Agreements between each GSP Group and the Parties within such GSP Group; and

WHEREAS, this Coordination Agreement in its initial form cannot meet all aspects of SGMA coordination guidelines because it is being executed before the respective GSPs have been prepared, and the Parties anticipate attaching and incorporating technical reports covering such additional required information before submittal of this Agreement to DWR with the Parties' respective GSPs without separate amendment being required.

THEREFORE, in consideration of the facts recited above and of the covenants, terms and conditions set forth herein, the Parties agree as follows:

SECTION 1 – PURPOSE

1.1 Compliance with SGMA

In subbasins with multiple GSPs, SGMA requires the GSPs to be coordinated through a negotiated coordination agreement. The purpose of this Coordination Agreement is to comply with that SGMA requirement and ensure that the multiple GSPs within the Subbasin are developed and implemented utilizing the same methodologies and assumptions, that the elements of the GSPs are appropriately coordinated to support sustainable management, and to ultimately set forth the information necessary to show how the multiple GSPs in the Subbasin will achieve the sustainability goal, as determined for the Subbasin in compliance with SGMA and its associated regulations.

SECTION 5 RESPONSIBILITIES FOR KEY FUNCTIONS

5.1 Coordination Committee

5.1.1 The Parties agree to establish a Coordination Committee to provide the forum for the parties to coordinate all activities under this Coordination Agreement. For example, the Coordination Committee shall determine how the GSPs are required to be coordinated to satisfy SGMA; receive technical information from the Parties, GSP Groups, DWR, subcommittees authorized by this Agreement or other sources, [provide direction to the Plan Manager](#), and take related actions.

The schedule for rotation among the GSP Groups will be set at the first meeting after the Chairperson is appointed and reviewed and adjusted annually. A GSP Group Representative may waive designation as Chairperson. In such a case the Chairperson office would rotate to the next designated entity.

5.2.2 Secretary

The Coordination Committee shall select a Secretary to carry out the functions described in this subsection, to serve at the pleasure of the Coordination Committee. The Secretary shall be a public agency who may be, but need not be a Party to this Coordination Agreement. The San Luis & Delta-Mendota Water Authority is hereby designated as the initial Secretary, to serve at the pleasure of the Coordination Committee.

a) The Secretary shall select an appointee to implement the Secretary's responsibilities under this Coordination Agreement, for example, to coordinate meetings; prepare agendas; circulate notices and agendas; provide written notice to all Parties that the Coordination Committee has made a recommendation requiring approval by the Parties; prepare and maintain minutes of Meetings of the Coordination Committee; receive notices on behalf of the Coordination Committee and call to the Coordination Committee's attention the need for responding; and provide such other assistance in coordination as may be appropriate.

5.2.3 Plan Manager

The Coordination Committee shall name a Plan Manager, who may be a consultant hired by the Secretary pursuant to the Coordination Agreement, the representative of an entity that

Formatted: No underline

has been selected as Secretary, or a public agency participating in a GSA that is a Party to this Coordination Agreement, and who shall serve as the point of contact for DWR as specified by SGMA. The San Luis & Delta-Mendota Water Authority is hereby designated as the initial Plan Manager, to serve at the pleasure of the Coordination Committee.

a) The Plan Manager's role is defined by SGMA. The Parties expect that the Plan Manager as the point of contact will be to communicate information, decisions, and policy direction from the Coordination Committee to DWR and from DWR to the Coordination Committee. In this role, the Plan Manager shall, at the direction of the Coordination Committee, submit all GSPs, Coordination Agreements, plan amendments, supporting information, monitoring data and other pertinent information, Annual Reports, and periodic evaluations to DWR when required.

b) The Plan Manager has no authority to make policy decisions or represent the Coordination Committee without the specific direction of the Coordination Committee. The Plan Manager is obligated to disclose all substantive communications he/she transmits and receives in his/her capacity as Plan Manager to the Coordination Committee.

5.3 Coordination Committee Authorized Actions and Limitations

5.3.1 Authorized Actions

e) The Coordination Committee is authorized to act upon the following enumerated items~~determine any action subject to its jurisdiction as set forth in this Coordination Agreement. Examples of these actions include but are not limited to:~~

a) ~~Prior to adoption of GSPs by all GSP Groups, the primary focus and authorized actions of the Coordination Committee will shall be to produce, review, and approve~~ the Technical Memoranda described in Sections 8-12 of this Coordination Agreement ~~to ensure that the coordination requirements of Water Code section 10727.6 and associated regulations have been met.~~

b) ~~Once GSP Plans have been submitted to and approved by DWR, the Coordination Committee shall be responsible for ongoing review and updating of the Technical Memoranda as needed, assuring submittal of annual reports; providing 5five-year assessments and recommending any needed revisions to the Coordination Agreement; and providing review and assistance with coordinated projects and programs.~~

Commented [DR1]: Balance of section is descriptive of parties intent and for reference. Andrew McClure recommended its elimination.

Commented [DR2]: Revisions from Andrew McClure and D. Rathmann to address comments of Ellen Wehr – refer back to required 7 elements of coordination WC 10727.6; state authorization in b) more expansively to outline cost considerations

Formatted: Space Before: 5.7 pt, No bullets or numbering

Commented [DR3]: Jeff Grant – put in procedure regarding expanding jurisdiction, such as unanimous vote; change jurisdiction to "authority"

Commented [DR4]: Peter: wants more detailed list of powers because Committee has power to bind GSP Groups; show reasonable limitations; put in procedure so County has opportunity to weigh in on actions that are not clearly defined/including consulting contracts

Commented [DR5]: Based on section 357.4(i) of the regulations.

cb) The Coordination Committee shall approve annual estimates of Coordinated Plan Expenses presented by the Secretary and any updates to such estimates; provided, that such estimates with supporting documentation shall be circulated to all Parties for comment at least thirty (30) days in advance of the meeting at which the Coordination Committee will consider approval of the annual estimate.-

Commented [DR6]: Language to address Peter's comment above.

d) Pursuant to Section 13, the Coordination Committee is authorized to approve changes to Exhibit "A" to this Coordination Agreement and to recommend amendments to terms of this Coordination Agreement.

e) The Coordination Committee shall assign work to subcommittees and workgroups as needed, provide guidance and feedback and ensure that subcommittees prepare work products in a timely manner.-

f) The Coordination Committee shall direct the Plan Manager in the performance of its duties under SGMA.

g) The Coordination Committee shall provide direction to its Officers concerning other administrative and ministerial issues necessary for the fulfillment of the above-enumerated tasks.

Commented [DR7]: No provision included on convening meetings because covered in 5.5.1

Commented [DR8]: Addition of this provision would also help to address concerns about actions, e.g., of the Secretary

5.3.2. Modification of Authorized Activities

The Coordination Committee's authorized activities may be revised pursuant to unanimous consent in accordance with the procedures described in Section 5.6.2

Formatted: Underline

5.3.3 Limitations

When the terms of this Coordination Agreement or applicable law require the approval of a Party, that approval shall be required and evidenced as indicated in Section 6 of this Agreement.

5.3.4 Parties Agree to Be Bound by Coordination Committee Decisions

The Parties to this Coordination Agreement agree to be bound by the votes of their respective GSP Group Representatives and further agree to comply with directions, determinations, and issuances duly approved by the Coordination Committee and recorded by Resolution, Motion, or Minutes of the Coordination Committee. Such directions,

Commented [DR9]: Andrew McClure: he thinks needed to assure valid Coordination Agreement under SGMA. Peter wall 357.4 in Regs that describes agreements.

determinations, and issuances shall be specifically enforceable by and against each of the Parties to this Coordination Agreement.

Commented [AM10]: There needs to be an obligation that the parties to this agreement comply with the direction of the Coordinating Committee. This exercise would be of limited value if the signatories to the Agreement were free to ignore a conclusion issued by the coordinating committee.

5.4 Subcommittees and Workgroups

The Coordination Committee may appoint subcommittees, workgroups, or otherwise direct staff made available by the Parties. Such subcommittees or workgroups may include qualified individuals possessing the knowledge and expertise to advance the goals of the Coordination Agreement on the topics being addressed by the subcommittee, whether or not such individuals are GSP Group Representatives or Alternate Representatives. All costs related to subcommittees and workgroups shall be the responsibility of each Party providing the subcommittee or workgroup participant.

Commented [DR11]: Note that subcommittee structure is not specified in terms of numbers. Concept is for participation by technical experts on particular topic; no quorum requirements; and voting is merely to apprise the Coordination Committee on opinion of subcommittee participants. See 5.4.2.

5.4.1 Work of Subcommittees

Tasks assigned to subcommittees, workgroups, or staff made available by the Parties may include developing technical data, supporting information, and/or recommendations on matters including, but not limited to:

a) Developing a process to update the Coordination Committee on the activities of the respective Parties, including the development, planning, financing, environmental review, permitting, implementation, and long-term monitoring of the multiple GSPs in the Subbasin;

b) Subject to the oversight of the Coordination Committee, Establishing and scheduling subcommittee or workgroup meetings of the subcommittee or workgroup as necessary to coordinate development and implementation of the Technical Memoranda and Coordination Agreement. Attendance at these meetings may be augmented to include staff or consultants of all Parties to ensure that the appropriate expertise is available;

c) Determining common methodologies for GSP development;

d) Developing a Subbasin-wide monitoring network;

e) Preparing a coordinated water budget;

f) Developing a coordinated data management system;

g) Providing an explanation of how the respective GSP²s implemented together satisfy the requirements of SGMA and are in substantial compliance with and SGMA; and

g)h) Such other tasks as may be referred by the Coordination Committee from time to time.

5.4.2 Subcommittee Voting

Formatted: No underline

One ~~voting representative~~ ~~per~~ GSP Group Representative ~~or Alternate Representative~~ shall vote on behalf of the GSP Group at the subcommittee level; if no GSP Group Representative or Alternate Representative is present, one individual working on a subcommittee on behalf of the Parties in a GSP Group shall vote on behalf of the GSP Group. Subcommittees shall report voting results and provide information to the Coordination Committee but shall not be entitled to make determinations or determinations that are binding on the Parties.

5.5 Coordination Committee Meetings

5.5.1 Timing and Notice

The Chairperson of the Coordination Committee, any two GSP Group Representatives, or the Secretary may call meetings of the Coordination Committee as needed to carry out the activities described in this Coordination Agreement. The Coordination Committee may, but is not required to, set a date for regular meetings for the purposes described in this Coordination Agreement. The Secretary shall prepare an agenda and notice, publicly post, and distribute agendas to all GSP Group or Subgroup Representatives, the Parties and any other interested persons who requests, in writing, such notices. The Agenda shall be of adequate detail to inform the public and the parties of the meeting and the matters to be transacted or discussed, and shall be posted in a public location and distributed to each of the parties to this Coordination Agreement at least seventy-two (72) hours prior to every regular meeting and at least twenty-four (24) hours prior to every special meeting.

Commented [DR12]: Peter Wall: advisory committee that can make decisions binding public agencies so need Brown Act. Vs Ellen: basically impossible to comply with so many tiers of compliance; vs. Jeff – likes more disclosure and thinks each GSA would have approval of actions; no quorum of legislative bodies of any Party; Peter cites Joiner v City of Sepulveda 25 Cap 3rd 799 – Committee made up of other committees where court held Brown Act did apply; Ellen: see Valerie Kincaid primer – call Memorandum of Agreement like GSA where no requirement for Brown Act vs JPA. Andy would like us to do more leg work ; @ add savings clause re amendment to comply with law.

5.5.2 Quorum

~~A voting~~ The GSP Group Representative(s) ~~or Alternate~~ from ~~each every~~ GSP Group listed on Exhibit “A” must attend to constitute a quorum of the Coordination Committee. For example, so long as there are seven (7) GSP Group Representative positions on Exhibit “A”, a quorum shall be seven (7). ~~-a meeting during which the Coordination Committee may take action.~~ The GSP Group Alternate Representative(s) of each GSP Group shall be counted

Commented [AM13]: This generally tracks the Agenda and Notice requirements under the Brown Act without specifically invoking ‘The Brown Act.’

towards a quorum and as the voting representative(s) in the absence of the GSP Group Representative for which the GSP Group Alternate has been appointed. If less than a quorum is present, the GSP Group Representatives and Alternate Representatives may hear reports and discuss items on the agenda, but no action may be taken.

5.5.3 Open Attendance

Members of the public, stakeholders, and representatives of the Parties who are not appointed as GSP Group Representatives may attend all meetings and shall be provided with an opportunity to comment on matters on the meeting agenda, but shall have no vote.

5.5.4 Minutes

The Secretary's appointee shall keep and prepare minutes of all Coordination Committee meetings. Notes of subcommittee meetings shall be kept by the Secretary's appointee or an assistant to the appointee. All minutes and subcommittee meeting notes shall be maintained by the Secretary as Coordination Agreement records and shall be available to the Parties and the public upon request.

5.6 Voting by Coordination Committee

5.6.1. Each GSP Group Representative shall be entitled to one vote at the Coordination Committee. It shall be up to the Parties in each GSP Group to determine how the GSP Group vote(s) will be cast.

5.6.2 Except as set forth in Section 5.6.3, and for authorization to call meetings of the Coordination Committee described in Section 5.5, the unanimous vote of a quorum of the Coordination Committee is required on all items upon which the Coordination Committee is authorized to act as identified in Section 5.3, the following items:

~~a) Approval of annual cost estimates of Coordinated Plan Expenses presented by the Secretary;~~

~~b) Except as set forth in subsection 5.6.3, determinations on coordination of rules and regulations, or policies and procedures for coordination of GSPs within the Subbasin;~~

~~e) Decisions addressing the use of the same data and methodologies for assumptions described in Water Code Section 10727.6 to prepare Coordinated Plans. By way of example and not limitation, the approval of the Technical Memoranda described in~~

Commented [DR14]: What the Coordination Committee will be voting on now described in Section 5.3. General concept is that GSP Group representatives will need to receive direction from the Parties outside of this Agreement so that GSP Group Representatives have authorization prior to casting a vote; hence, unanimity is required. However, see next section on process for developing recommendations..

Commented [DR15]: AMcClure Comment: This requires the Coordination Committee unanimously approve the required coordination on issues such as groundwater elevation data, coordinated water budget, and sustainable yield for the basin.

Because SGMA requires coordination on these issues, it makes sense to use the Coordination Committee as the forum to resolve any disputes. The unanimity requirement ensures compromise.

~~Sections 9, 10, 11 and 12 of this Coordination Agreement shall require unanimous approval of the Coordination Committee as set forth herein; and~~

~~d) Changes to Exhibit "A" to this Coordination Agreement pursuant to Section 13.1.~~

~~e) Any other action for which a unanimous vote is required by the terms of this Coordination Agreement.~~

5.6.3 Voting Procedures to Address Lack of Unanimity for Formulation of Policies, Rules, Regulations, Projects and Programs.

~~When it appears likely that the Coordination Committee will not be able to come to unanimous decision on any matter upon which it is authorized to act, upon a majority vote of a quorum of the Coordination Committee, the matter may be subjected to the following additional procedures: decisions regarding policies; coordination of rules and regulations; and projects or programs to implement SGMA on a coordinated basis may move forward upon the vote of a majority of a quorum, subject to the additional procedures outlined in this Section.~~

a) Straw Polls

Straw poll votes may ~~also~~ be taken for the purpose of refining ideas and providing guidance ~~direction~~ to the Coordination Committee, subcommittees, or both.

b) Provisional Voting

Provisional votes may occur prior to final votes. This will be done when an initial vote is needed to refine a proposal but the GSP Group Representatives wish to consult with their respective GSP Group(s) before making a final vote.

c) A GSP Group Representative may request a delay in taking a vote opposed by that Representative in order to propose a constructive alternative, to be proposed at the next meeting, which may include resolution by modifying the decision to remove objectionable features.

d) If the process outlined in subsection 5.6.3(c) fails to result in a unanimous vote, any GSP Group Representative opposing the action may request that the vote be delayed for one (1) additional meeting while the Coordination Committee, or if appropriate, any subcommittee established under this Coordination Agreement that has provided information on the recommended action, considers the objection, consults with DWR when appropriate for

e) The processes outlined in subsections b), c) and d) may not delay final action on any matter more than two (2) meetings unless such delay is authorized by a unanimous vote of the Coordination Committee.

SECTION 6 – APPROVAL BY INDIVIDUAL PARTIES

6.1 Where law or this Coordination Agreement require separate written approval by each of the Parties, such approval shall be evidenced in writing by providing the resolution, Motion, or Minutes of their respective Boards of Directors to the Secretary of the Coordination Committee.

SECTION 7 - EXCHANGE OF DATA AND INFORMATION

7.1 Exchange of Information

The Parties acknowledge and recognize pursuant to this Coordination Agreement that the Parties may need to exchange information amongst and between the Parties.

7.2 Procedure for Exchange of Information

7.2.1 The Parties shall exchange public and non-privileged information through collaboration and/or informal requests made at the Coordination Committee level or through subcommittees designated by the Coordination Committee. However, to the extent it is necessary to make a written request for information to another Party, each Party shall designate a representative to respond to information requests and provide the name and contact information of the designee to the Coordination Committee. Requests may be communicated in writing and transmitted in person or by mail, facsimile machine, or other electronic means to the appropriate representative as named in this Coordination Agreement. The designated representative shall respond in a reasonably timely manner.

7.2.2 Nothing in this Coordination Agreement shall be construed to prohibit any Party from voluntarily exchanging information with any other Party by any other mechanism separate from the Coordination Committee.

7.2.3 The Parties agree that each GSP Group shall provide the data required to develop the Subbasin-wide coordinated water budget but unless required by law, will not be

Commented [DR17]: Per comment by Lauren Layne, extensive confidentiality provisions are not appropriate given public agency participation; per Andrew, this is the crux of the privacy issue and is offered as a replacement.

required to provide individual well or parcel-level information in order to preserve confidentiality of individuals to the extent authorized by law.

7.2.4 ~~To~~ the extent that a court order, subpoena, or the California Public Records Act is applicable to a Party, such Party in responding to a request made pursuant to that Act for release of information exchanged from another Party shall notify each other Party in writing of its proposed release of information in order to provide the other Parties with the opportunity to seek a court order preventing such release of information.

Commented [DR18]: Peter Wall points out WC 10730.8(b), which grants same protection from disclosure of personal information as provided for information to utility customers under GC 6254.16. This gives further step of required notice to other parties before any release.

SECTION 8 – METHODOLOGIES & ASSUMPTIONS

8.1 SGMA Coordination Requirements:

Pursuant to SGMA, this Coordination Agreement must ensure that the individual GSPs utilize the same data and methodologies for developing assumptions used to determine: 1) groundwater elevation; ~~2) groundwater-and~~ extraction data; ~~3) surface water supply~~; ~~4) total water use~~; ~~5) changes in groundwater storage~~; ~~6) water budgets~~; and ~~7) sustainable yield~~.

8.2 Pre-GSP Coordination

Prior to the individual development of GSPs, the Parties agree to develop agreed-upon methodologies and assumptions for 1) groundwater elevation; ~~2) groundwater-and~~ extraction data; ~~3) surface water supply~~; ~~4) total water use~~; ~~5) changes in groundwater storage~~; ~~6) water budgets~~; and ~~7) sustainable yield~~. This development may be facilitated through the Coordination Committee’s delegation to a sub-committee or workgroup of the technical staff provided by some or all of the Parties. The basis upon which the methodologies and assumptions will be developed includes existing data/information, best management practices, and/or best modeled or projected data available and may include consultation with the DWR as appropriate.

Commented [DR19]: This draft uses the approach of developing and adding Technical Memoranda between the time the Agreement is executed and the time it is submitted to DWR. This is intended to respond to: Andrew McClure commented: 23 CCR 357.4 requires that a coordination agreement describe “**How** the Agencies have used the same data and methodologies . . . to prepare Coordinated Plans/I have significant doubts about whether the statement that the Agencies **will coordinate** satisfies the obligation to show **how** the agencies have coordinated.”d

A couple of alternatives: 1) the Kern Basin option – in which the parties to the Coordination Agreement recite SGMA requirements for issues such as water budget and monitoring network and agree to comply; or 2) update the Coordination Agreement with technical memos on each of the issues identified.

Option 2 is better, but it would delay the effective date of the Coordination Agreement until completion of the technical memos.

As an alternate approach, please see proposed new Section 8.3. 9.3. 10.3, 11.3 and 12.3 to address this issue

8.3 Technical Memorandum Required

The data and methodologies for assumptions described in Water Code section 10727.6 ~~and 23 CFR 357.4~~ to prepare coordinated plans shall be set forth in ~~a~~ Technical Memorandum ~~and~~ prepared by the Coordination Committee. The Technical Memorandum ~~and~~ shall be subject to the unanimous approval of the Coordination Committee and once approved, shall be attached to and

incorporated by reference into this Coordination Agreement without formal amendment of the Coordination Agreement being required.

SECTION 9 – MONITORING NETWORK

9.1 In accordance with SGMA, the Parties hereby agree to coordinate the development and maintenance of a monitoring network at a Subbasin level through the coordination of the respective monitoring networks established pursuant to the GSPs in which each of the Parties hereto are participating. The Subbasin monitoring network description shall include monitoring objectives, protocols, and data reporting requirements specific to enumerated sustainability indicators. Each GSP Group’s network shall facilitate the collection of data in order to characterize groundwater and related surface water conditions in the Subbasin and evaluate changing conditions that occur from implementation of the individual GSPs. Each Party’s GSP will describe the monitoring network’s objectives for the Subbasin, including an explanation of network development and implementation to monitor groundwater and related surface conditions, and the interconnection of surface water and groundwater.

9.2 Each GSP Group shall provide the Coordination Committee all relevant data and information for their respective representative monitoring sites established in accordance with 23 CCR ~~S~~section 354.36, as amended from time to time.

9.3 Approval of Technical Memorandum Required-

The monitoring objectives, protocols, and data reporting requirements specific to enumerated sustainability indicators required for the monitoring networks shall be set forth in a Technical Memorandum prepared by the Coordination Committee. The Technical Memorandum shall be subject to the unanimous approval of the Coordination Committee and once approved, shall be attached to and incorporated by reference into this Coordination Agreement without formal amendment of the Coordination Agreement being required.

SECTION 10 – COORDINATED WATER BUDGET

10.1 In accordance with SGMA, the Parties hereby agree to prepare a single coordinated water budget for the Subbasin as described in this subsection for use in the respective GSP in which each of the Parties hereto are participating. The water budget will provide an estimate of the total annual volume of groundwater and surface water entering and leaving

the Subbasin, including historical, current and projected water budget conditions, and the change in the volume of water stored and the safe yield for differing aquifers.

10.2 To the extent feasible, the Parties will consider the best available information and best available science to quantify the water budget for the Subbasin in order to provide an understanding of historical and projected hydrology, water demand, water supply, land use, population, climate change, sea level rise, groundwater and surface water interaction, and subsurface groundwater flow.

10.3 Technical Memorandum Required:

The foregoing considerations and conclusions regarding the coordinated water budget shall be set forth in a Technical Memorandum prepared by the Coordination ~~Agreement~~Committee. The Technical Memorandum shall be subject to the unanimous approval of the Coordination Committee and once approved, shall be attached to and incorporated by reference into this Coordination Agreement without formal amendment of the Coordination Agreement being required.

SECTION 11 – COORDINATED DATA MANAGEMENT SYSTEM

11.1 The Parties will develop and maintain a coordinated data management system that is capable of storing and reporting information relevant to the reporting requirements and/or implementation of the GSPs and monitoring network of the Subbasin.

11.2 The Parties also will develop and maintain separate data management systems. Each separate data management system developed for each GSP will store information related to implementation of each individual GSP, monitoring network data and monitoring sites requirements, and water budget data requirements. Each system will be capable of reporting all pertinent information to the Coordination Committee. After providing the Coordination Committee with data from the individual GSPs, the Coordination Committee will ensure the data is stored and managed in a coordinated manner throughout the Subbasin and reported to DWR annually as required.

11.3 Technical Memorandum Required:

The criteria for the development and maintenance of a coordinated data management system shall be set forth in a Technical Memorandum prepared by the Parties to this Coordination

Agreement. The Technical Memorandum shall be subject to unanimous approval of the Coordination Committee and once approved, shall be attached to and incorporated by reference into this Coordination Agreement without formal amendment of the Coordination Agreement being required.

SECTION 12 - ADOPTION AND USE OF THE COORDINATION AGREEMENT

12.1 Coordination of GSPs

Each Party is responsible to ensure that its own GSP complies with the statutory requirements of SGMA, including but not limited to the filing deadline. The Parties to this Coordination Agreement intend that their individual GSPs be coordinated together in order to satisfy the requirements of SGMA and to be in substantial compliance with the California Code of Regulations. The collective GSPs will satisfy the requirements of Sections 10727.2 and 10727.4 of the Water Code by providing a description of the physical setting and characteristics of the separate aquifer systems within the Subbasin, the measurable objectives for each such GSP, interim milestones, and monitoring protocols that together provide a detailed description of how the Basin as a whole will be sustainably managed.

12.2 GSP and Coordination Agreement Submission

The Parties agree to submit their respective GSPs to DWR through the Coordination Committee and Plan Manager, in accordance with all applicable requirements. Subject to the subsequent attachment of the Technical Memoranda described in Sections 8-124 and this Section 12, the Parties intend that this Coordination Agreement fulfill the requirements of providing an explanation of how the GSPs implemented together satisfy the requirements SGMA for the entire Subbasin.

12.3 Technical Memorandum Required

An explanation of how the GSPs implemented together satisfy the requirement of SGMA and provided substantial compliance with its terms shall be included in a Technical Memorandum prepared by the Parties to this Coordination Agreement. The Technical Memorandum shall be subject to unanimous approval of the Coordination Committee and

Commented [DR20]: Added because it is not clear that other Technical Memoranda on specific topics jointly provide this explanation as required by 23 CCR 357.4(c).

once approved, shall be attached to and incorporated by reference into this Coordination Agreement without formal amendment of the Coordination Agreement being required.

13 MODIFICATION AND TERMINATION OF THE COORDINATION AGREEMENT

13.1 Modification or Amendment of Exhibit “A”

The Parties agree that Exhibit “A” may be updated by unanimous vote of the Coordination Committee from time to time. -Upon such modification, the updated Exhibit “A” shall be attached to this Agreement as a replacement to the previously existing Exhibit “A.” -Upon such attachment, the updated “Exhibit “A” shall become a part of this Coordination Agreement without further Amendment of the Coordination Agreement being required. -The Secretary shall provide notice of such change to all Group Contacts.

13.1.1 Withdrawal of a Party

In the event the Exhibit “A” change reflects the withdrawal of a Party, such withdrawal shall be accomplished in accordance with the terms of Section **14.2.1** of this Coordination Agreement.

13.1.2 Addition of a Party

In the event the Exhibit “A” change reflects the addition of a Party, such Party may be added only upon its execution of a counterpart of this Agreement and its provision of any additional documentation required by **Sections 3.1.2 a) and 3.1.2 b)** of this Coordination Agreement.

13.2 Modification or Amendment of Coordination Agreement

Except as provided in Sections 13.1 and 13.3, The Parties hereby agree that ~~(except as provided in Section 13.1)~~ this Coordination Agreement may be supplemented, amended, or modified only ~~by the mutual written agreement of the Parties. No supplement, amendment, or modification of this Coordination Agreement shall be binding unless it is in_ by writinga writing and~~ signed by all Parties.

13.3 Amendment for Compliance with Law

Should any provision of this Coordination be determined to be not in compliance with legal requirements under circumstances where amendment of the Agreement to include a provision

Commented [DR21]: Placeholder. For discussion Under this approach, the GSP Groups (and therefore the Parties to the Agreement) could be changed by an update to Exhibit “A” without individual Party approval. Also, the share of Coordinated Agreement Expenses for each GSP Group could be changed. It would be up to separate GSP Groups to determine when their respective GSP Group Representative would be authorized to approve a change

Commented [DR22]: Concept changed to adding approved Technical Memoranda with Coordination Committee unanimous approval and without further amendment being required.

addressing the legal requirement will cure the non-compliance, the Parties agree to promptly prepare and approve such amendment.

~~14.2~~ ~~Withdrawal, Term and Termination~~ WITHDRWAL, TERM, AND TERMINATION

~~14.2.1~~ ~~Withdrawal~~

Subject to the requirements identified in SGMA and the any coordination guidelines or regulations issued by DWR, a Party may unilaterally withdraw from this Coordination Agreement without causing or requiring termination of this Coordination Agreement, effective upon thirty (30) days written notice to the Secretary and all other Parties. The Plan Coordinator shall report any such withdrawal to DWR within five (5) days of receipt of the written notice.

14.1.1

~~a)~~ Any Party who withdraws shall remain obligated to pay its share of all debts, liabilities, and obligations the Party incurred or accrued under the Coordination Agreement prior to the effective date of such withdrawal, as established under its separate GSP Group agreement concerning such share of obligations.

14.1.2

~~b)~~ Upon withdrawal, a Party agrees that it has a continuing obligation to comply with SGMA and any coordination guidelines or regulations issued by DWR, which require a coordination agreement if there are multiple GSPs in the Subbasin. This obligation shall survive the withdrawal from this Coordination Agreement and is for the express benefit of the remaining Parties.

14.1.3

~~e)~~ In the event any GSP Group Representative(s) prevents/prevent a required unanimous vote of the Coordination Committee after following all procedures described in 5.3.1 or Section 15 of this Agreement, the Parties in such GSP Group agree to appoint a GSP Group Representative willing to cast a positive vote on the issue or to provide notice that such GSP Group has unilaterally withdrawn from this Agreement in accordance with this Section.

~~14.2.2~~ ~~Term~~

Commented [DR23]: For discussion. This section is complicated because the Parties do not necessarily owe a fixed obligation under this Coordination Agreement; instead, each GSP Group has the fixed share of obligation and it is up to separate agreements among the parties comprising a GSP Group to determine their relative shares. See Section 3.1.2b re joint and several obligation.

As modified pursuant to Section 13 and unless terminated in accordance with Section 14.2.3, this Coordination Agreement shall continue for a term that is coterminous with the requirements of SGMA for the existence of a Coordination Agreement.

14.2.3 Termination

This Coordination Agreement may be rescinded and the coordinated implementation of GSPs terminated by unanimous written consent of all the Parties. Nothing in this Coordination Agreement shall prevent the Parties from entering into another coordination agreement for coordination with any other subbasin.

SECTION 15 – DISPUTE RESOLUTION

15.1 Procedures for Resolving Conflicts

In the event that any dispute arises among the Parties relating to this Coordination Agreement or the rights and obligations arising from this Coordination Agreement, the aggrieved Party or Parties shall provide written notice to the other Parties of the controversy. Within thirty (30) days after such written notice, the Parties shall attempt in good faith to resolve the controversy through informal means. Each Party involved in the mediation shall promptly notify in writing each other Party of its representatives for dispute resolution. Such representatives shall agree upon a meeting date and place, which may be in person or by conference call, within fifteen (15) days. If the Parties involved in the dispute cannot agree upon a resolution of the controversy within thirty (30) days from the providing of written notice specified above, the dispute shall be submitted to mediation prior to commencement of any legal action. The mediation shall be no less than a full day (unless agreed otherwise among the Parties) and the cost of mediation shall be paid in equal proportion among the Parties involved in the mediation. The mediator shall be either voluntarily agreed to, or, if the Parties cannot agree upon a mediator, appointed by the Superior Court of Merced County upon a suit and motion for appointment of a neutral mediator. Upon completion of mediation, if the controversy has not been resolved, any Party may exercise all rights to bring a legal action relating to the controversy. This provision shall be a condition precedent to, but shall not otherwise replace the rights of the Parties to seek arbitration under the procedures set forth in the Code of Civil Procedure or judicial resolution of their disputes.

Commented [DR25]: Specify County in advance, e.g. Merced or Stanislaus?

15.2 Litigation

15.2.1 In the event a dispute or claim is not resolved by a mutually agreeable settlement through negotiation or mediation, the aggrieved Party may file suit in Merced County Superior Court with jurisdiction to provide a binding decision on the matter.

Commented [DR26]: Set a particular county superior court? Merced is good, Stanislaus probably OK, both fairly central.

15.2.2 The Parties agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms or were otherwise breached. It is accordingly agreed that the parties shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions hereof, this being in addition to any other remedy to which they are entitled at law or in equity.

SECTION 16 – GENERAL PROVISIONS

16.1 Authority of Signers

The individuals executing this Coordination Agreement represent and warrant that they have the authority to enter into this Coordination Agreement and to legally bind the Party for whom they are signing to the terms and conditions of this Coordination Agreement.

16.3 Severability

~~—Except as provided for cure by amendment in Section 13.3.~~ If any term, provision, covenant, or condition of this Coordination Agreement is determined to be unenforceable by a court of competent jurisdiction, it is the Parties' intent that the remaining provisions of this Coordination Agreement will remain in full force and effect and will not be affected, impaired, or invalidated by such a determination.

COST SHARING AGREEMENT
Delta-Mendota Subbasin Coordination

This Cost Sharing Agreement (“Agreement”) is made effective as of _____, 2018 by and among representatives, each a **“GSP Group Representative,”** for the six groupings of Groundwater Sustainability Agencies, stakeholders, and interested parties developing individual groundwater sustainability plans within the Delta-Mendota Subbasin (**“GSP Groups”**), and the San Luis & Delta-Mendota Water Authority (**“SLDMWA”**). The entities listed above may be referred to herein individually as a **“Party”** or jointly as **“Parties.”** For purposes of this Agreement, the “Effective Date” shall be the date the last Party executes this Agreement.

Commented [RRA1]: Andrew McClure comment: Suggest identifying signatories to distinguish between GSP Groups and Group Representatives

RECITALS

- A. The Sustainable Groundwater Management Act (**“SGMA”**) requires all groundwater subbasins designated as high or medium priority to manage groundwater in a sustainable manner.
- B. The Delta-Mendota Subbasin (Basin Number 5-22.07, DWR Bulletin 118) within the San Joaquin Valley Groundwater Basin (**“Subbasin”**), has been designated as a high-priority basin by DWR.
- C. The Delta-Mendota Subbasin includes multiple groundwater sustainability agencies (**“GSAs”**) that intend to manage the Subbasin through the development and implementation of multiple different groundwater sustainability plans (**“GSPs”**).
- D. The GSAs have organized into groundwater sustainability plan (**“GSP”**) groups (**“GSP Groups”**) and have agreed to be represented by GSP Group Representatives, on terms to be developed and implemented by separate agreements between each GSP Group and the parties within such GSP Group.
- E. SGMA allows local agencies to engage in the sustainable management of groundwater, but requires GSAs in all basins that are managed by more than one GSP to enter into a Coordination Agreement to coordinate the multiple GSPs to sustainably manage the Subbasin pursuant to SGMA.
- F. The GSP Groups desire to dictate terms describing the mechanisms for the sharing of the costs associated with the coordination activities described in the Delta-Mendota Subbasin Coordination Agreement (**“Coordination Agreement”**).
- G. The SLDMWA has been assisting the GSP Groups with SGMA compliance, and will act as the initial Secretary and Plan Manager with respect to the Coordination Agreement. As part of that effort, the SLDMWA and/or its agents agrees to undertake all activities required of it under the Coordination Agreement, so long as each GSP Group reimburses the SLDMWA for

its expenses and that GSP Group's apportioned share of the Coordinated Plan Expenses, described in Section 2 below.

- H. The Parties desire to enter into this Agreement to refine the Parties' informal agreements prior to the date of execution and to accomplish all of the foregoing matters on the terms and conditions set forth herein.

NOW, THEREFORE, based on the Recitals set forth above and on the terms and conditions set forth herein, the Parties agree as follows:

AGREEMENT

1. Administrative Coordination. ~~For so long as desired by the Coordination Committee. The~~ ~~Until termination of the services to be provided by the SLDMWA pursuant to Section 4 of the~~ ~~Coordination Agreement, the~~ SLDMWA will be responsible for undertaking all activities required of it under the Coordination Agreement including, but not limited to: intrabasin coordination; activities required in its role as Secretary of the Coordination Committee; activities required in its role as Plan Manager under the Coordination Agreement; and entering into professional services agreement(s) and any supplemental agreements required for the consultant work necessary to meet the objectives of the Coordination Agreement.
2. Coordinated Plan Expenses. The Parties agree that **Coordinated Plan Expenses** incurred under the Coordination Agreement shall mean any expenses incurred by the Secretary and Plan Manager at the direction of the Coordination Committee within approved annual cost estimates pursuant to Section 5 of this Cost Sharing Agreement for purposes of developing and implementing the Coordination Agreement, including actual expenses incurred in executing obligations under the Coordination Agreement for intrabasin and interbasin coordination beginning in August 2017. The Parties agree to make payments for Coordinated Plan Expenses through their GSP Groups, described in Section 6 below.
3. Participation Percentages. The Parties acknowledge and agree that the participation percentages in Exhibit "A" ("**Participation Percentages**") shall be utilized to determine the share of Coordinated Plan Expenses allocated to each GSP Group.
 - a. Initial Participation Percentages. Coordinated Plan Expenses will be paid proportionally by each GSP Group pursuant to their respective Participation Percentages, which have initially been set in equal percentages, as indicated in Exhibit "A."
 - b. Updated Participation Percentages. Participation Percentages may be evaluated by the Coordination Committee from time to time, including to consider new information concerning the relative contribution or responsibility of each GSP Group towards achieving the Subbasin-wide sustainability goal of their coordinated GSPs.
 - c. Ongoing Documentation of Participation Percentages. The most current Participation Percentages of each GSP Group shall be dated and attached as Exhibit "A" to this Cost Sharing Agreement, effective upon the date approved by the Parties under delegated

authority by their respective GSP Groups, without any further Amendment to this Cost Sharing Agreement being required.

4. Obligations Outside of Cost Sharing Agreement. Each GSP Group Representative acknowledges that it has the authority to bind the members of its GSP Group concerning the subjects of this Cost Sharing Agreement pursuant to that GSP Group’s outside agreement. It is the responsibility and obligation of each Party under the Coordination Agreement that is part of a multi-party GSP Group to provide documentation to the Secretary and the Coordination Committee establishing that such GSP Group has a binding agreement or mechanism assuring that the GSP Group will pay its Participation Percentage set forth on Exhibit “A,” as said Exhibit “A” may be modified from time to time; in the event of a default, such obligation shall be a joint and several obligation first, of the Parties to such GSP Group, but in the event any GSP Group defaults in paying Coordinated Plan Expenses the obligation to pay shall be a joint and several liability of all the GSP Groups. Provided, that the Secretary shall not be obligated to evaluate or provide an opinion on the legal sufficiency of the documentation.
5. Cost Estimates. The SLDMWA will obtain and provide the GSP Groups, through the Coordination Committee, with a written estimate (“**Estimate**”) of the cost of each task required for executing its obligations under the Coordination Agreement prior to March 1 each year, and as new tasks arise. Each Estimate will be subject to approval by the Coordination Committee, pursuant to the Coordination Agreement. The SLDMWA shall account for Coordinated Plan Expenses in accordance with standard public agency accounting procedures and shall invoice amounts to be collected from the GSP Groups in accordance with Section 6 below.
6. Invoicing and Payment. The SLDMWA shall bill the GSP Groups through their GSP Group Representatives, for all Coordinated Plan Expenses based upon their respective Participation Percentages, upon receipt of each individual invoice. Invoices are to be distributed to the appointed responsible agency as listed in Exhibit “A.” Payments are due thirty (30) days following receipt of the invoice. Amounts in arrears for more than thirty (30) days shall earn interest at the applicable legal rate.
7. Reporting. A cumulative Coordinated Plan Expense report shall be presented monthly. Each Invoice, described in Section 6 above, shall be accompanied by a Coordinated Plan Expenses report (“Report”). The Report shall consist of a cumulative itemized statement of all costs and expenses incurred pursuant to the Coordination Agreement and any disbursement of funds received by the SLDMWA under this Agreement.
8. Records. The SLDMWA shall maintain separate records regarding Coordinated Plan Expenses, including records of billing and payment and other documents related to the execution of its obligations under the Coordination Agreement. The Parties and their designated agents shall have the right to inspect all records maintained by the SLDMWA associated with this Cost Sharing Agreement at any time within normal business hours, with fifteen (15) business days’ advance notice to the SLDMWA in writing.
9. Notice. Whenever notice is required to be in writing, it may be given by delivery addressed as follows:

Commented [DR2]: Should this be the “Group Contacts” on Exhibit “A” of the Coordination Agreement, rather than the individual Group Representative, or should the individual be invoiced and pass the invoice on to the GSP Group Contact?

Becca: I’m leaving this for others to weigh in on – I don’t remember whether/how we resolved this.

Commented [RRA3]: Edit intended to respond to comment from Andrew McClure.

Commented [AG4]: Tona requested we ask the GSP Group Reps at Coordination Committee Level of what exactly they would like to see in the report.
